Figure 1-1 Flow Chart for Environmental Classification of Structures Abbreviations: Start CL = Chloride ppm = parts per million Is the structure over or Non-Marine Marine within 2,500 ft of a body of water with Structure Structure CL > 2,000ppm? Is the Is the structure over or within 2,500 ft of a superstructure within Nobody of water with 2500 ft of industrial CL > 6,000facility? ppm? Yes Is the Is the superstructure structure over higher than 12 ft. Yes Water? No above MHW?

No

Superstructure Moderately

Aggressive and

go to Table 1.1 for

Substructure Classification

Superstructure Slightly
